§ 930.91 Amendments.

Amendments to this subpart may be proposed, from time to time, by the Board or by the Secretary.

§ 930.100 Grower diversion certificates.

(a) In accordance with paragraph (b) of this section, the Board may, for the 1997 crop year, issue diversion certificates to growers, in districts subject to volume regulation (Northwest Michigan, Central Michigan, New York, and Utah) who have voluntarily elected to divert in the orchard all or a portion of their 1997 tart cherry production which otherwise, upon delivery to handlers, would become restricted percentage cherries. Growers may offer the diversion certificate to handlers in lieu of delivering cherries.

(b) *Terms and conditions.* To be eligible to receive diversion credit, growers voluntarily choosing to divert cherries must meet the following terms and conditions:

(1) In order to receive a certificate, a grower must demonstrate, to the satisfaction of the Board, that rows or trees which were selected for diversion were not harvested. Trees six years old or younger do not qualify for diversion.

(2) The grower must furnish the Board with a total harvested production amount so the Board can calculate the amount of grower diversion tonnage to be placed on the diversion certificate. The Board will confirm the grower's production amount with information provided by handlers (to which the grower delivers cherries) on Board Form Number Two.

(3) The grower must agree to allow a Board compliance officer to visit the grower's orchard to confirm that diversion has actually taken place.

(c) *Calculation of diversion amounts.* The weight of cherries diverted and left unharvested shall be calculated by the Board after growers furnish the Board with the necessary information concerning their production. After verification of the volume of cherries diverted, the Board shall calculate the amounts of grower diversion tonnage to be placed on the diversion certificates and issue such certificates to growers. Such amounts shall be determined as follows:
